

# MyLab - Summer 2018 Update

.....

We're announcing a new way to navigate your MyLab and gain deeper insight into student performance, and we have enhanced the eText experience for your students.

# What's Inside?

---

- 3** New Instructor Home
- 9** New Performance Analytics
- 12** Graphing Enhancements
- 14** eText Enhancements

# Everything you need at your fingertips

---

MyLab gives you complete flexibility over your course, and now with the new instructor homepage, the most important and highly used features in the MyLab are **one click away**.

This June, the default screen when entering your course will be a **new** homepage that will:

- Reduce the time it takes to set up and navigate MyLab
  - Get you where you need to go quickly
- Allow you to easily discover and implement new MyLab features

# New Instructor Home

The Instructor Home **simplifies MyLab navigation**. It's comprised of four tiles:

1. Welcome
2. Gradebook
3. Assignments
4. Enrich your course

Each tile has direct links to the most highly utilized features for course administration, so you can get where you need to go in one click.

# Assignments tile

Similarly, you have instant access to the most highly utilized assignment management features including:

- Manage/edit assignments
- Settings for multiple assignments
- Individual student settings

The screenshot displays the 'Assignments' tile in a Learning Management System. At the top, there are three summary cards: a partially visible one showing '50/55 completed' with a 'Send Reminder' link; 'Quiz 1' showing 'Avg. 80%' and '50/55 completed' with a 'Send Reminder' link; and 'Section 1.5 Homework [Past Due]' showing 'Avg. 70%' and '50/55 completed' with a 'Manage Incompletes' link. Below these are three links: 'Manage gradebook >', 'Change weights >', and 'View all assignments >'. The main 'Assignments' section is highlighted with a red border and contains a calendar icon, the title 'Assignments', and a list of items: 'Section 1.5 Homework' due 'February 25, 2016', 'Section 1.6 Homework' due 'February 25, 2016', 'Quiz 1' due 'February 29, 2016', 'Section 1.8 Homework' due 'February 29, 2016', and 'Test 1' due 'February 29, 2016'. At the bottom of this section are three links: 'Manage assignments >', 'Settings for multiple assignments >', and 'Individual student settings >'. Below the assignments section is an 'Enrich Your Course' section with a stack of books icon, the text 'Find Ways to enrich your course with interactive aids and learning tools.', and three links: 'Gradebook and assignment enhancements >', 'Learning Catalytics: Real-time learning >', and 'Learn more about outcomes in MyLabs >'.

# Enrich Your Course tile

The final tile allows you to easily discover and implement teaching and learning features that meet the needs of your course.

The **Enrich Your Course** page, accessed from the instructor homepage, provides you with an overview of some of the most important features and a guide to get started using these features quickly.

**Enrich your course**

Find ways to enrich your course with interactive aids and

# New performance analytics

---

Whether you need a snapshot of how your students are performing or you want a deep dive into a specific student's progress, we have you covered. Performance analytics give you the insight you need to make more informed decisions for remediation and improved instruction.

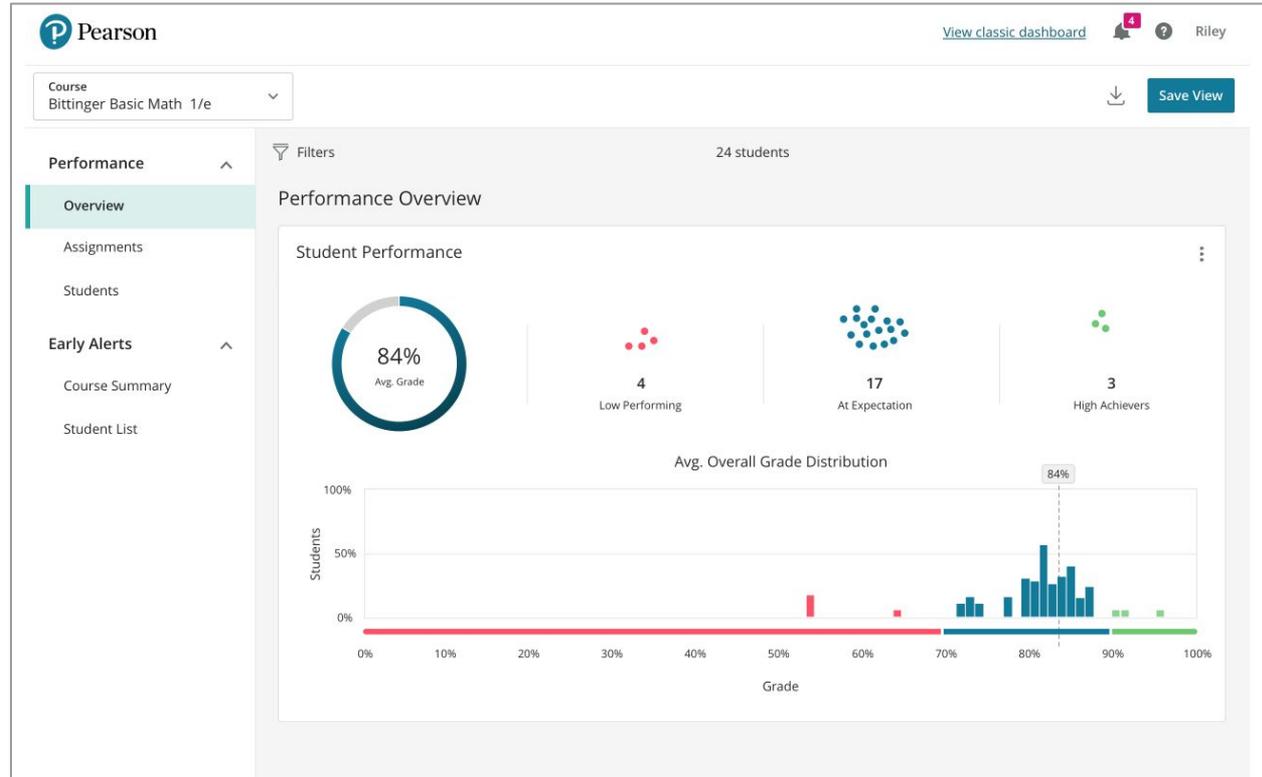

**Expected release: mid-August 2018**

# New student performance analytics

Performance analytics provides a quick glance of overall course performance, or the ability to click on a name to drill down on an individual student's performance. Accessed through your gradebook, performance analytics give you:

- Access to new insights in the same location across all of your MyLab courses
- An easy way for you to engage directly with students based on insights

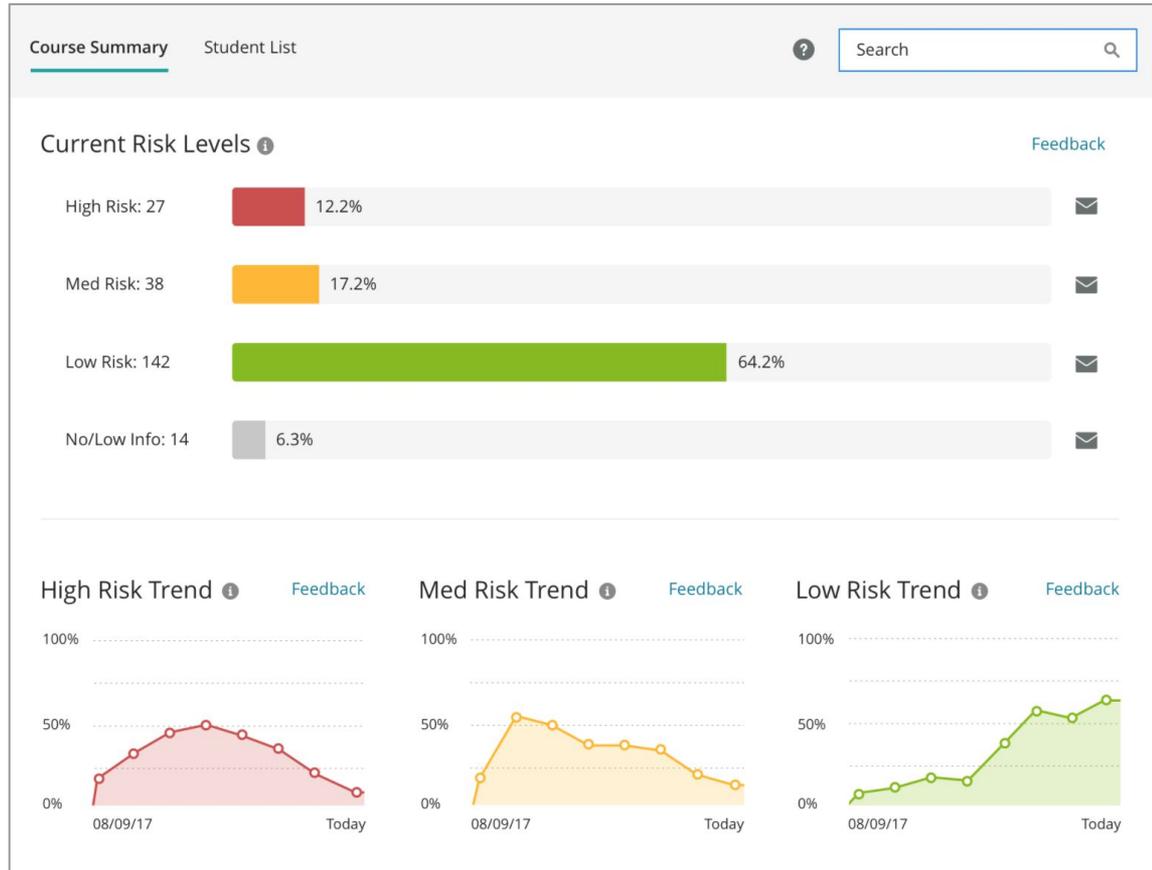

Expected release: mid-August 2018

# Early Alerts

For select Math titles, Early Alerts helps you look beyond scores and activity metrics to identify a previously invisible population of students—those who are struggling with the material in a way that might not be clear by looking at the gradebook.

The Early Alerts dashboard shows a more complete picture of students who maybe struggling. This insight enables you to provide personalized feedback and support at the moment students need it so they can stay—and succeed—in the course.

**Available in select Math titles only**  
**Expected release: mid-July 2018**

# Graphing enhancements

It's now simpler and easier for students to answer problems and demonstrate their learning using graphs.

Graphing updates will impact all MyLab assignments that contain graphing question types.

# Graphing

Enhancements will be made to graphing capabilities that will help improve the student learning experience. Updates will include:

- Easier to use graphing palette
- Larger graph size

**Section 9.3 | Objective:** Use these problems to test lines in the SD Grapher.  
**Availability:** Homework, Tests and Quizzes, Study Plan  
**Origin:** Publisher

The screenshot displays the SD Grapher interface. At the top right, there is a "Question Help" button with a gear icon. The main area contains the problem text: "Graph the line that contains the point (3,4) and has a slope of  $\frac{1}{4}$ ." Below this, it says "Graph the line." and a button that says "Click to enlarge graph" with a small graph icon. To the right is a large coordinate grid with x and y axes ranging from -10 to 10. Below the grid is a toolbar with various icons: a mouse cursor, a line tool, a V-shaped tool, a U-shaped tool, a curve tool, a circle tool, a hand tool, a menu icon, and buttons for "Delete" and "Clear". Below the toolbar, there is a prompt: "Click the graph, choose a tool in the palette and follow the instructions to create your graph." At the bottom, there are controls for "All parts showing" (a blue bar), "Clear All", and "Check Answer". There are also radio buttons for "Show completed problem", "Work problem as student" (which is selected), and "Student to show work". The "Question points" are set to 1, and there is a "Scoring options" link.

# eText enhancements

---

The updates to the eText experience for students makes reading and studying from a mobile device or computer better than ever. We've revamped the look and feel of the eText and improved the digital note taking experience to help students stay active in their learning and take effective notes.

# eText Enhancements

The eText update includes:

- Syncing of notes across all devices
- A new look for the table of contents
- Access to the new eText Notebook\*

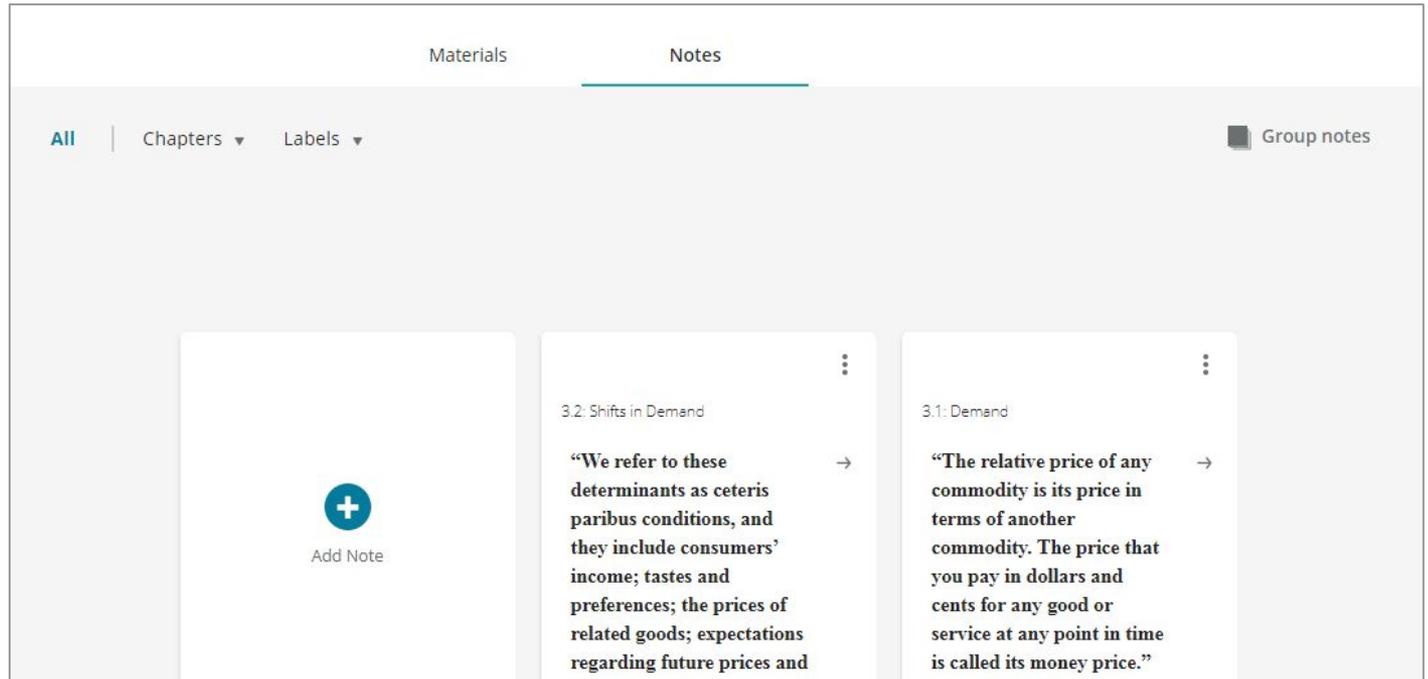

The screenshot displays the eText interface for 'Economics Today, 19/e' by Roger LeRoy Miller. The interface features a dark teal header with a '< Dashboard' button, the title 'Economics Today, 19/e', and the author's name 'Roger LeRoy Miller'. Below the header is a white 'Arrange Contents' button and a navigation bar with 'Contents', 'Bookmarks', and 'Notes' tabs. The 'Contents' tab is active, showing a list of chapters with expandable arrows: '1: The Nature of Economics (PART 1: INTRODUCTION)', '2: Scarcity and the World of Trade-Offs', and '3: Demand and Supply'. A red box highlights the table of contents area. The background shows a blurred view of the eText content, including the title 'Economic Analysis' and a search bar.

\*Not available for PDF based eText titles.

# New eText Notebook

You and your students can create notes independent of eText highlights, making the Notebook\* a one-stop shop for everything students want to remember and everything you want to share with them.

Notes may also be filtered by chapter or by highlight label type (e.g., Shared Note from Instructor, Questions, Main Ideas).

\*Not available for PDF based eText titles.
